

A photograph showing a healthcare worker in blue scrubs leaning over a laptop, smiling and looking at an elderly man who is also smiling. The man is holding the laptop. The background is a blurred indoor setting with green plants.

Need to improve or replace your existing Wi-Fi but don't have the capital investment dollars to do it? HealthSignals® can install, enhance or replace your existing wireless technology with Medical Grade Wi-Fi® Wi-Fi as a Service (WaaS) with no capital outlay.

Wi-fi and Senior Living

COVID-19 has made it abundantly clear that Wi-Fi and high-speed Internet is essential in all types of senior living communities. Wi-Fi has been essential to these facilities for years, enabling connectivity for administration and residents alike. Medical-grade Wi-Fi® enables video-heavy technologies such as telemedicine and virtual visits with loved ones in the midst of a pandemic.

Medical Grade Wi-Fi® as a Solution without the capital investment

With Medical Grade® Wi-Fi as a Service, you're not buying the underlying hardware, nor are you responsible for designing, installing, managing, troubleshooting, repairing, replacing, or upgrading it. Instead, HealthSignals provides everything that is needed to support the level of service that you've ordered for as long as the service agreement is in effect. HealthSignals can provide this level of service and support for as little as \$25 per unit per month*.

The Benefits of HealthSignals Medical Grade Wi-Fi® as a Service

-  **Telemedicine** – Requires extensive bandwidth and HIPAA compliance. Medical Grade Wi-Fi® is a HIPAA-compliant solution that facilitates encrypted communications with healthcare providers via telemedicine.
-  **Predictable Technology Costs** - Wi-Fi as a Service shifts the costs of Wi-Fi from a capital expense to a recurring expense. Your outlay for up-to- date Wi-Fi Technology just became a predictable expense.
-  **Improved Resident Satisfaction** - Seniors, patients, and their families increasingly expect robust Wi-Fi throughout senior living and skilled nursing facilities. Pre-COVID-19, they wanted to be able to stay connected via FaceTime and similar services in between in-person visits. The pandemic only heightened this desire as visits became impossible.

HealthSignals Medical Grade Wi-Fi® as a Service provides “worry free” Wi-Fi to your Senior Living Community for a predictable cost.

Call HealthSignals® now at **610-337-1333** or email us at sales@healthsignals.net to find out how to get started with Medical Grade Wi-Fi® as a Service.

* Monthly cost is based on service level desired on a five- or seven-year contract billed quarterly, semi-annually or annually.
